

SILVERWEEK[™] · HEALTHY BODY.

SILVER SPORTS

Let us help you to get the most out of the best future investment that you can make: YOUR HEALTH. Our exclusive healthy holiday **SILVERWEEK™ experiences** combine the support of specialists with the unique features of the Costa del Sol to generate great experiences that you won't be able to forget. You will also learn new habits that will change your life.

Our proposal **to enjoy a quality, long and independent life** is based on programmes that are specifically designed to generate emotions and positively motivate you in four key areas:

- Healthy body
- Healthy relationships
- Healthy mind
- Healthy eating

In order to age in an active way, not only do we have to be informed about how to improve our health, but we have to change our lifestyle.

We can begin this change by understanding that first we have to get rid of our bad habits. Once this has been done, we can start to learn and acquire new habits related to the four key health pillars.

Join us and embark on this new journey. Come to the Costa del Sol to receive that dose of health and wellbeing that you need so badly!

A woman is running away from the camera on a paved road. She is wearing a white tank top, black leggings, and blue sneakers. Her hair is tied up and blowing in the wind. The background shows a sunset with a bright sun low on the horizon, casting a warm glow over the scene. The road is lined with green trees and bushes. A semi-transparent purple banner is overlaid across the middle of the image, containing the text.

**Our
Philosophy.**

Healthy mind

The balance between a person and their sociocultural environment.

Healthy body

The physical condition of the body.

Healthy eating

Balance and variety are key to a healthy lifestyle.

Healthy relationships

State of wellbeing related to the interaction with others and with participation in society.

Healthy body

You control your body

And not only the voluntary control of your muscles, but also the “involuntary” actions that we create as daily habits.

In order to look and feel better, you have to get moving. Get active by changing small routines such as going up stairs, walking to the shops or visiting Friends. Walk the dog, learn to dance Zumba or start doing a sport, when possible, outdoors.

There are thousands of fun and simple ways of doing exercise and improving your health. Chose your way.

Healthy mind

**Always be
positive**

Remaining young, keeping active and continuing to enjoy life is all in the mind. Happiness can be trained. Work on your health to keep your self-confidence strong and to develop more skills.

Our brains are prepared for continuous learning, to process new stimuli and experiences, to be open to creativity and emotions, to continue to grow and evolve as a person.

Healthy eating

**Tell me what
you eat...and I'll
tell you how
long you'll live**

Healthy food is the base for everything else. It is good for you to know what you eat, discover new foods and learn how to prepare them in such a way that they provide your body with what it really needs to work better and prevent illness.

Enjoy food, make the most of the advantages of the Mediterranean diet and feed your soul with the smells, colours and textures of a varied and balanced diet that will help you to be more healthy.

Healthy relationships

The joy of sharing experiences with other people

We are social beings by nature. With the family, at home, at work, with friends... there is a continuous interaction with other people. We like to be considered as trustworthy people, and to have other people in who we can trust.

Enjoying people that are close to you, getting to know new people and establishing new bonds and relationships are all factors that make us active people in society.

healthy life?**
